Experience

UI Engineer | RapidAscent

Apr 2022 - Present | US - Remote

- ▶ Was the dedicated Vietnamese in a multi-national Scrum team behind **Linkforce**.
- ▶ Worked directly with Tech Lead and Design Lead in designing product features.
- ▶ Led 2 Indians in building main dashboard and marketing site.
- ▶ Solely built **RapidAscent UI** library from scratch.
- ▶ Technologies used: JavaScript, SASS, React, Webpack, Vite, Storybook, Jest, Azure DevOps.

Front-end Engineer V | OpenCommerceGroup

May 2020 - March 2022 | Hanoi, VN

- ▶ Was a senior engineer of Front, the team responsible for all store-front items in the company's ecosystem: **ShopBase**, **PrintBase** and **PlusBase**.
- ▶ Collaborated with Tech Lead and PM in designing and planning product features.
- ▶ Was in charge of discovering, documenting technical solutions, reviewing code as well as delegating front-end tasks to a team of 3.
- ▶ Conducted interviews, onboarded and mentored newly hired front-end engineers.
- ▶ Maintained native apps such as the Review, Upsell.
- ▶ Implemented several features of default themes Inside and Roller.
- ▶ Initialized and built Theme CLI and Theme Editor v2 from scratch.
- ▶ Developed parts of Storefront Next such as Vue core application, custom Vite plugins, native Image / Link component, exposed product utilities, etc.
- ▶ Ideated and documented development guideline for theme partners.
- ▶ Open-sourced **vue-tiny-validate**, a 1.4KB gzipped Vue validate library.
- ▶ Led a team of engineers and designers in developing a ShopBase Design System to standardize UX / UI across company's products.
- ▶ Technologies used: JavaScript, TypeScript, Vue, Vuex, SASS, Webpack, Vite, Fastify, Jenkins, GitlabCI, Docker, Jest, etc.

Front-end Engineer | Bravebits

Feb 2019 - Mar 2020 | Hanoi, VN

- ▶ Was a part of the team behind **PageFly**, #1 Page Builder app in the Shopify App Store.
- ▶ Built several parts of PageFly, including analytics, page outline, page editing and creating process, etc.
- ▶ Integrated third-party Shopify apps like **AliReview** and **Judge.me** to PageFly.
- ▶ Provided technical support to worldwide customers.
- ▶ Technologies used: Typescript, React, styled-components, Webpack, ExpressJS, MongoDB.

Embedded Software Intern | SVMC

Jul 2018 - Aug 2018 | Hanoi, VN

- ▶ Worked in a lab where I learned about OOP, data structure and algorithm in the C++.
- ▶ Participated in the Samsung Hackathon and won 2nd place for the **Car Rental Management** app.
